IMACS Global Lists

NSN/TMS/MDS
and
Mfg Part Number

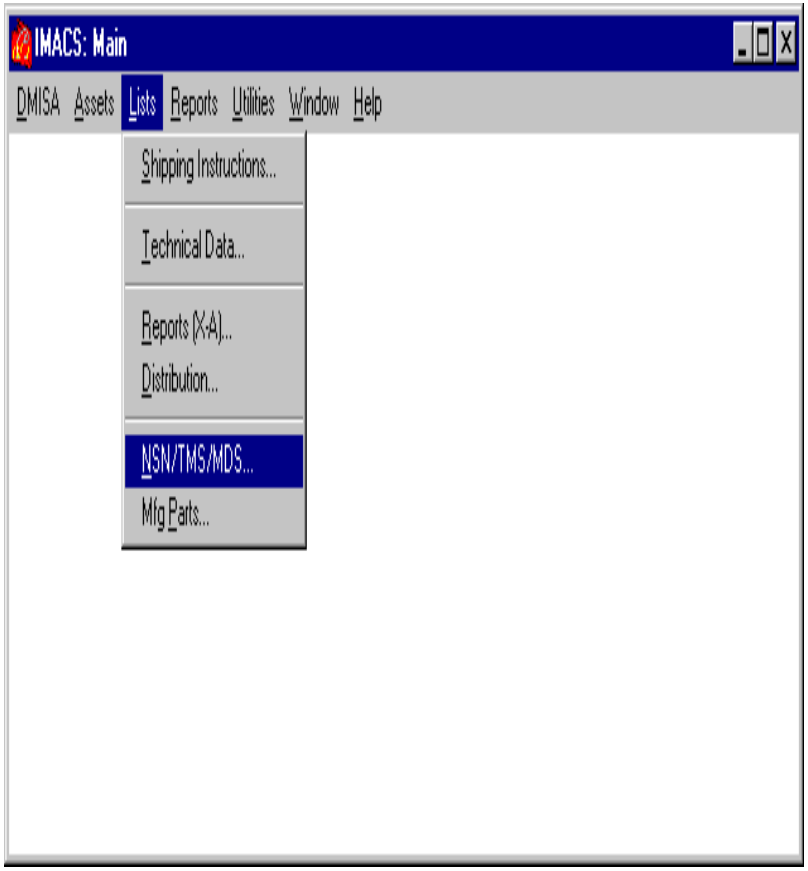
Global NSN/TMS/MDS List

- Principals and Agents can add NSNs to the master list either:
  - From the Main menu, under the Lists option…
  - Or, while in Exhibits I or II when adding or updating line items.
- Users add NSNs to the master list by accessing FLIS real-time, on-line and requesting the desired NIIN.
- IMACS retrieves the latest NIIN, along with the FSC, COG, and MMAC (as applicable); Nomenclature, Hazardous Material and Precious Metals codes; and Unit of Issue.

Global NSN/TMS/MDS List (Cont.)

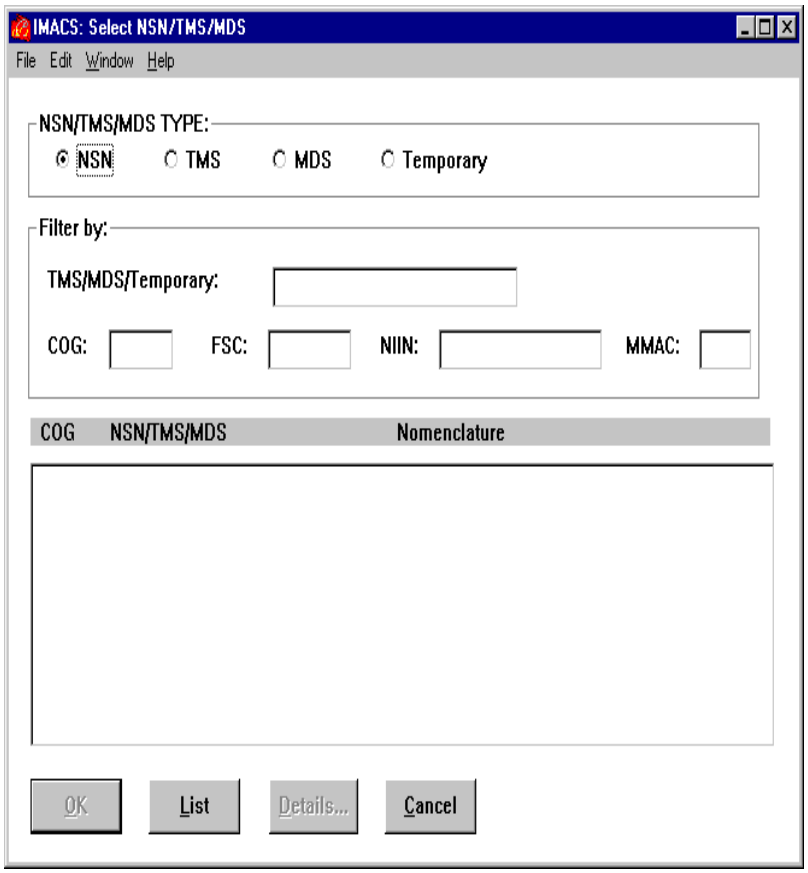
- ***Notes:***
  - NSNs used in DMISAs are selected only from this global/master list.
  - The NSN must be in this list before it can be added to a DMISA.

Global NSN/TMS/MDS List (Cont.)



- From IMACS Main Menu, select NSN/TMS/MDS.
- This accesses the master list of NSNs, TMSs, MDSs, and Temporary NSNs that are in the IMACS database.

Global NSN/TMS/MDS List (Cont.)

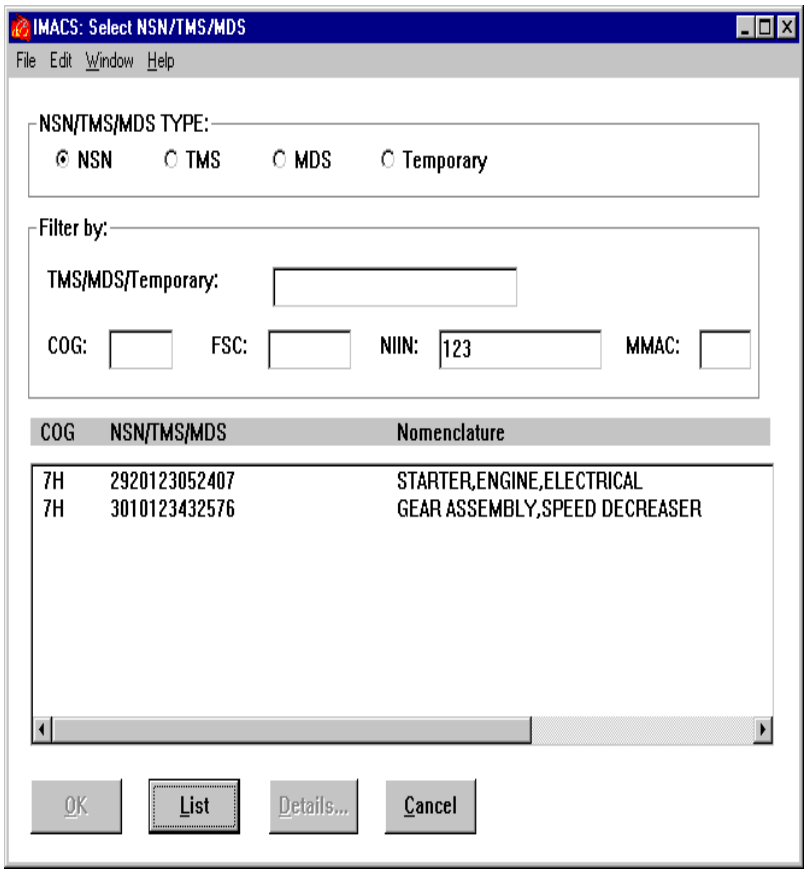


To view the list…

- Select the radio button for either NSN, TMS, MDS, or Temporary (NSN is the default).
- With the NSN button selected, fill in some or all of the COG, FSC, NIIN, and/or MMAC fields and click the List button.

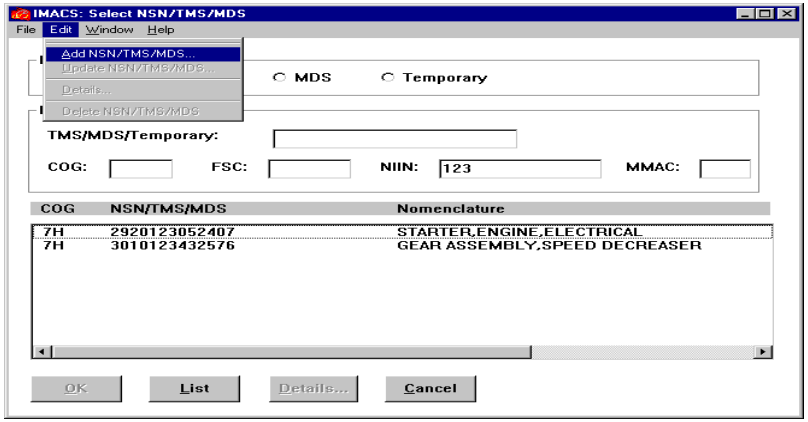
Note: The master list is VERY long. Recommend using filter fields to access the part of the list needed.

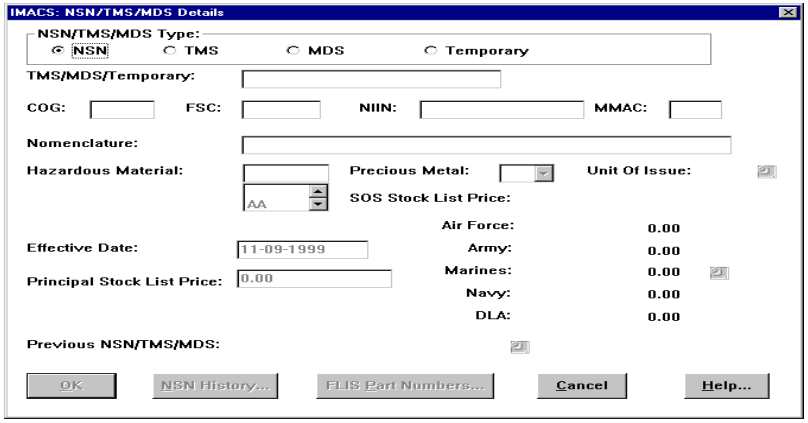
Global NSN/TMS/MDS List (Cont.)



- In this example, we searched for any NIINs beginning with ‘123’.

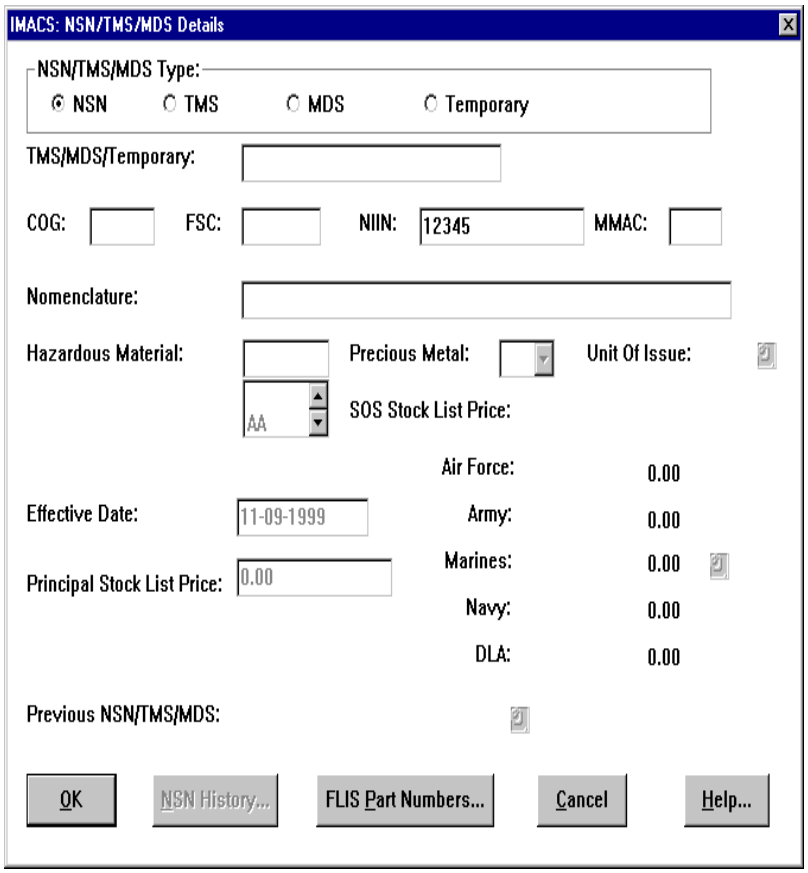
Adding an NSN (Cont.)





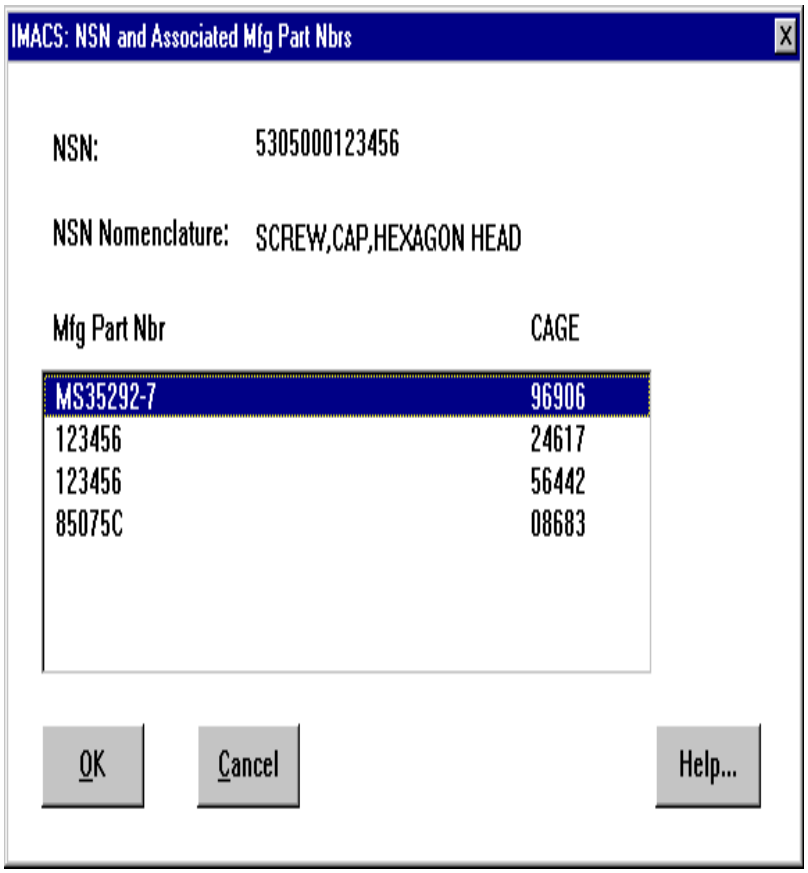
- From the Select NSN/TMS/MDS window, select ‘Add NSN/TMS/MDS’.
- The NSN/TMS/MDS Details dialog box displays.
- With NSN radio button selected, only the NIIN field is enterable.

Adding an NSN (Cont.)



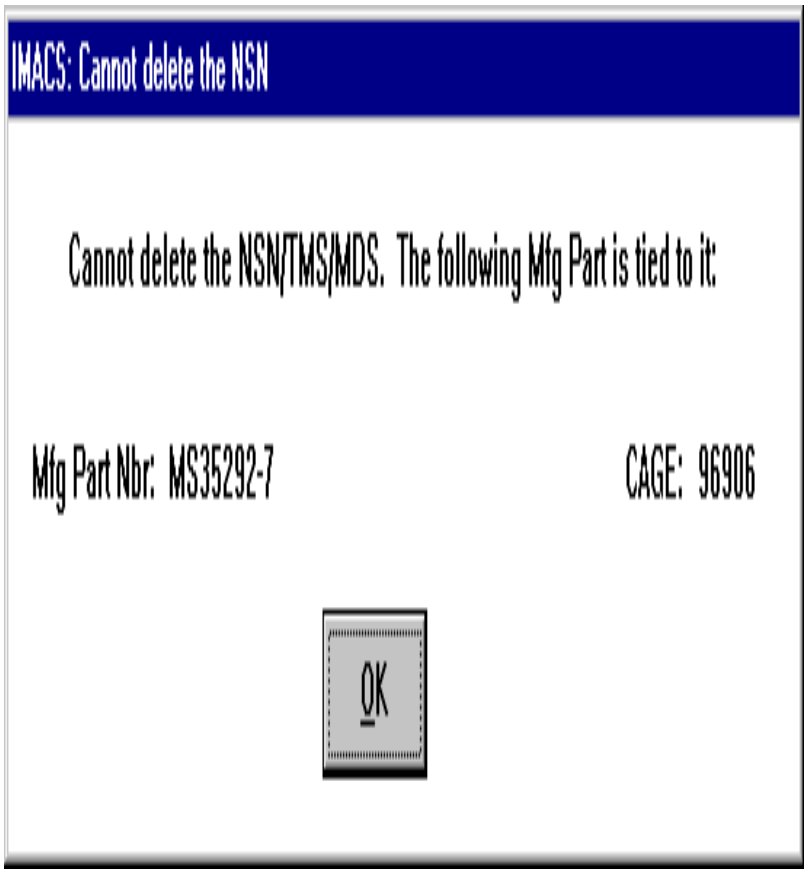
- Two choices are possible:
  - OK button accesses FLIS to retrieve only an NSN.
  - FLIS Part Numbers button will retrieve the NIIN with its associated Mfg Part Numbers.

Adding Mfg Part Number associated with NSN



- When FLIS Part Numbers button is used, the screen “NSN and Associated Mfg Part Nbrs” displays.
- Select Mfg Part Nbr and click OK.
- Both NSN and selected Mfg Part Nbr are saved in IMACS.

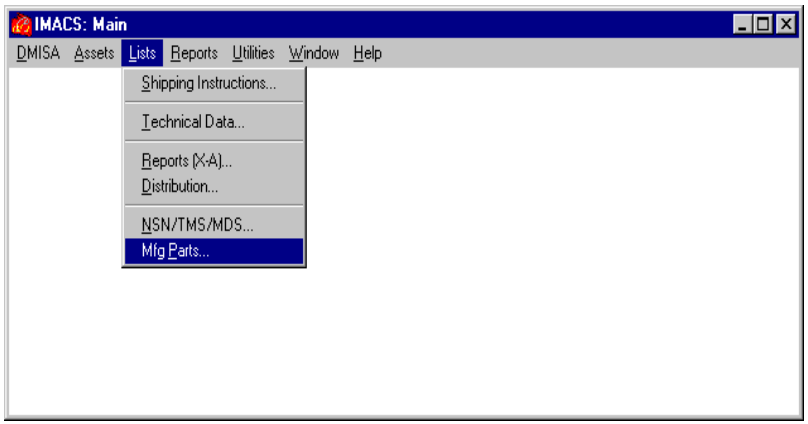
Deleting NSN Tied to Mfg Part Number

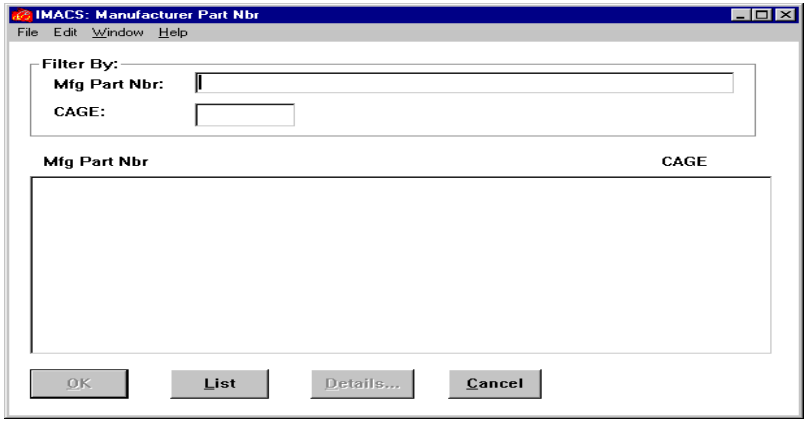


IMACS: Cannot delete the NSN
Cannot delete the NSN/TMS/MDS. The following Mfg Part is tied to it:
Mfg Part Nbr: MS35292-7
CAGE: 96906
OK

- Cannot delete an NSN that is tied to a Mfg Part Number
  - Must delete Mfg Part Nbr first, then delete NSN.
- Cannot delete an NSN or Mfg Part Nbr tied to a DMISA.

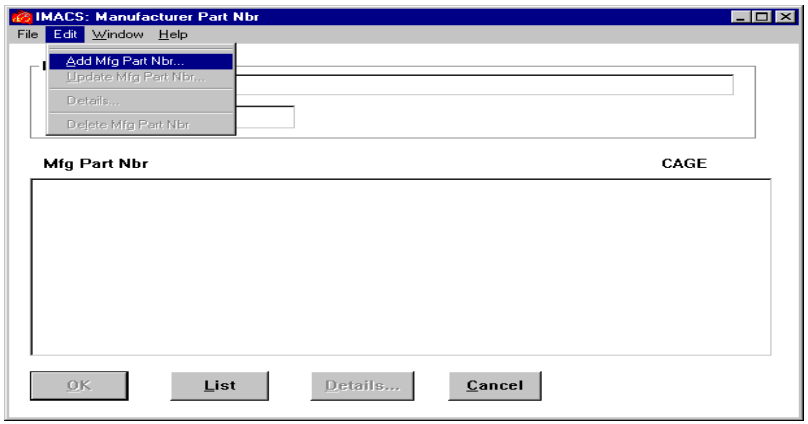
Adding Mfg Part Number

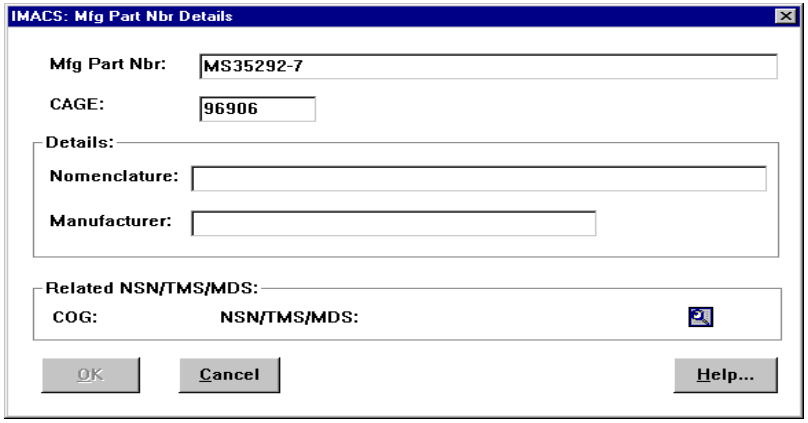




- From IMACS Main menu, select Lists, then select Mfg Part.
- Manufacturer Part Nbr window displays.

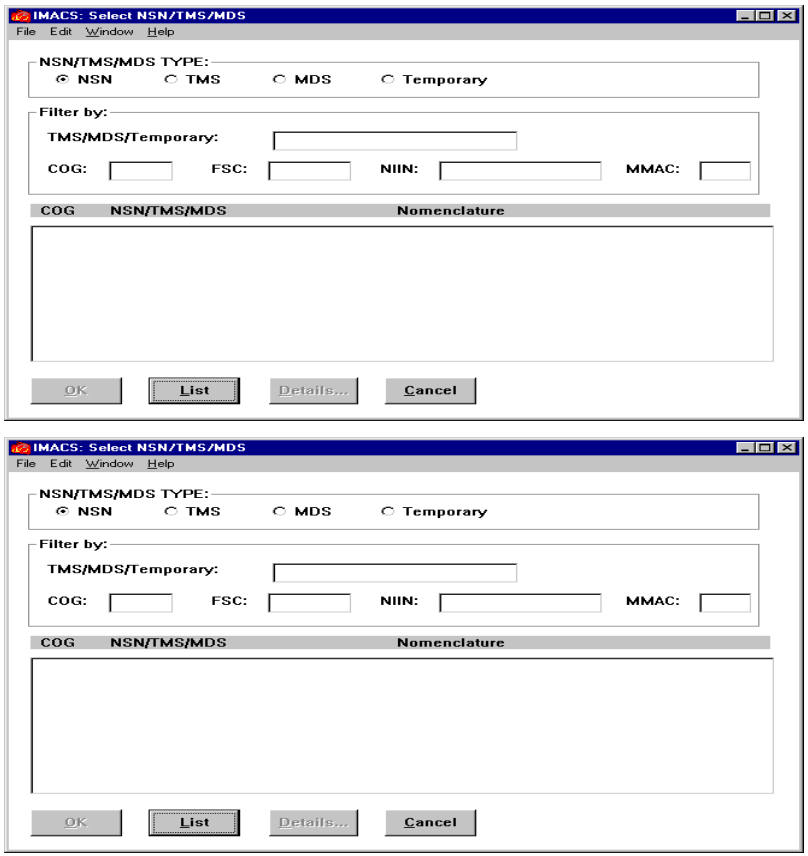
Adding Mfg Part Nbr (Cont.)





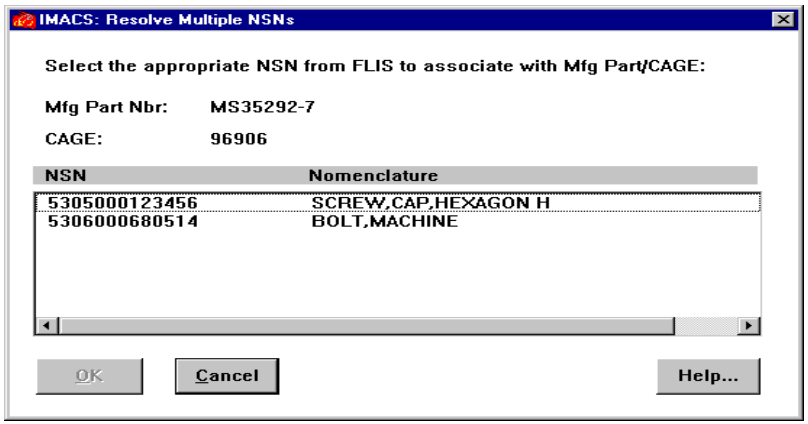
- From Edit menu, select Add Mfg Part Nbr.
- On Mfg Part Nbr Details dialog box, enter both Mfg Part Nbr and CAGE.
- Click on search icon next to Related NSN/TMS/MDS field.

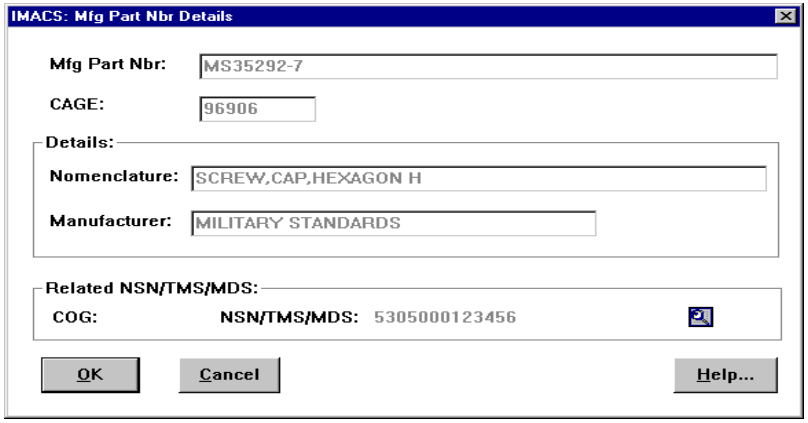
Adding Mfg Part Nbr (Cont.)



- Select NSN/TMS/MDS screen displays.
- Click List button. Program goes to FLIS to get related NSNs for that Mfg Part Nbr.

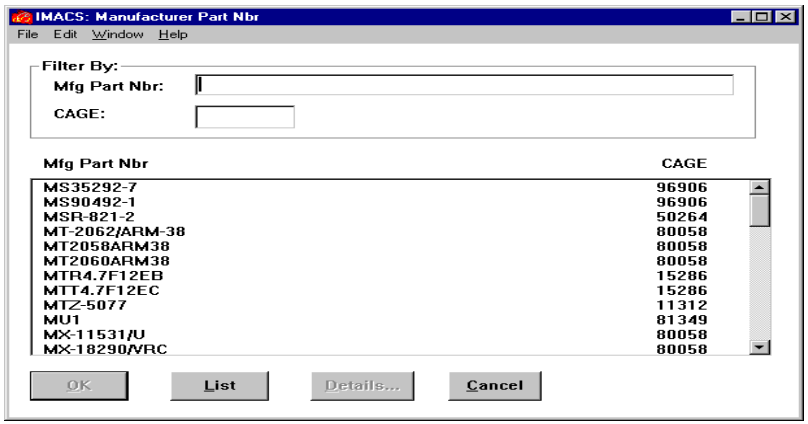
Adding Mfg Part Nbr (Cont.)





- Select NSN from “Resolve Multiple NSNs” screen.
- Click OK.
- The selected NSN is now associated with that Mfg Part Number.
- Both are in IMACS database now.

Adding Mfg Part Nbr (Cont.)



- Click OK from Multiple NSN screen to bring back NSN.
- Added Part Nbr now is in master list - at top of list.
